

## GI-Days 2007 – Young Researchers Forum

10. - 12. September 2007

<http://www.gi-days.de>.

GI-Days 2007 will provide a platform for young researchers worldwide to present their work from all sectors of geographic information science. The range of topics will be comparable to the well established series of GIScience conferences, focusing on emerging topics and basic research findings. Participants of GI-Days 2007 will learn about the diversity of currently ongoing research projects and receive feedback on their research in a constructive and international atmosphere.

### Poster Session

Beside the paper presentations at the conference tracks, GI-Days 2007 will have a poster session to provide a forum for all participants to present and discuss their current research. In order to be accepted for the poster session, please upload an abstract (500 words) through our web site <http://www.gi-days.de/posters.php>.

### Keynotes

- Dr. Max Craglia, Institute for Environment and Sustainability, Joint Research Centre of the European Commission
- Samuel Widmann, Head of Local/Maps, Google Switzerland GmbH
- Prof. Silvia Nittel, Department of Spatial Information Science & Engineering, University of Maine

### Tutorials

- The In's and Out's of Writing a Thesis, Dr. Francis Harvey, University of Leicester, UK
- Funding Acquisition, Dr. Christoph Brox, University of Münster, Germany.
- Utility of Logic and Formal Methods for the GIScientist, James Hood, University of Exeter, UK.
- How Does Geoinformatics Business Work? Dr. Adam Sliwinski, con terra GmbH Warsaw, Poland.

### Conference Location

The conference will be held from 10 - 11 September in the castle of the University of Münster. The tutorials will take place on 12 September in the Institute for Geoinformatics.

### Registration

Participants can register at <http://www.gi-days.de/register.php>

Early registration until 27th July: 160 €/ 60 €(Students)

Late registration from 28th July: 190 €/ 90 €(Students)

Tutorials: 15 €

If you are interested in arts, you should consider combining your GI-Days 2007 participation with a worthwhile visit of the world renowned exhibition of *sculpture projects muenster 07*. For more information, please visit: <http://www.skulptur-projekte.de>.
